

Mimic Components Showcases Cutting-Edge Automation Solutions at KITE Trade Show 2025

Press Release:

Exhibitor: Mimic Components JHB
Event: KITE Trade Show 2025
City: Durban, South Africa
Date: 22- 24 July 2025
Venue: Durban Exhibition Centre
Stand No: B11A

Mimic Components, a market leader in electrical and electronic instrumentation for industrial process automation, will be exhibiting its latest technology at the upcoming KwaZulu-Natal Industrial Technology Exhibition (KITE) from 22–24 July 2025 at the Durban Exhibition Centre. Visitors can expect to see an impressive range of high-performance devices as Mimic presents a dynamic show of its most advanced product lines. Their technical specialist, Christo Vosloo, will be available throughout the show for live demonstrations, technical discussions, and product insights. Post-show webinars can be arranged.

Show display products include:

Digital Panel Meters with multi-programmable options
High-performance DAC Devices (Data Acquisition & Communication)
SCT Equipment (Sensing, Conditioning & Transmitters)
Power Logging and Energy Meters with Rogowski Coils

Visitors can interact with globally recognized automation solutions from Novus Automation (Brazil) and Multispan (India), with segmented product catalogues available for show attendees to take home.

Product Catalogue Categories:

LED Indicators
Control Components
Audible Visual & Warning Devices Sirens, Sounders, Alarm Systems
Industrial Wire Marking Cable Solutions with High-Speed, High-Volume Printers
Special Electrical Enclosures
Measuring Instruments & Controllers
Temperature & Humidity Dataloggers
Power Logging and Energy Meters
Mosaic Mimic Panels
Control Desks

Visit Mimic Components at the KITE Trade Show 2025 Stand B11A and experience the next generation of industrial automation technology. Take advantage by engaging with our expert show staff, and discover how Mimic can meet your operational and technical needs.

About Mimic Components

Established in 1971, Mimic Components began as a manufacturer of mosaic mimic panels and evolved into a premier wholesale distributor of advanced electrical and electronic components. With a strong focus on innovation, local manufacturing, and customer support, Mimic leads in supplying products for process automation, control systems, aviation lighting, and industrial monitoring across South Africa and international markets. Mimic remains committed to developing its sector and supporting technical excellence in the industry.
